

Join us for **TODOS LIVE!**

A series of interactive on-line professional development sessions for members

Monday, July 22, 2013

12:00 PM EDT – 11:00 AM CDT – 10:00 AM MDT – 9:00 AM PDT

General Session

A free webinar for TODOS members and all others.

Reviewing and Writing for TEEM (Teaching for Excellence and Equity in Mathematics)

Ever think about making an important contribution to TODOS (and the field of mathematics education) by reviewing or writing for the TODOS refereed journal, TEEM? TODOS members and not-yet members are all invited to join us at this free webinar that explores the details and big picture of the process in accessible terms and gives you a chance to ask your questions directly to a founding TEEM editor!

Target Audience

Classroom teachers, coaches, administrators, curriculum coordinators, professional developers and university/college faculty.

Registration Information

A limited number of seats are available so please register as soon as possible at

<https://student.gototraining.com/r/2263198802421149952>

After registering you will receive a confirmation email containing information about joining the training.

First time participants, please join in the day of the session 15 minutes before the start of the session to do a technology check with the session facilitator.

Technology Requirements

We will be using GoToTraining for these sessions. You will need a computer with a speaker and microphone or a computer and a separate telephone. After registering, you will receive a confirmation email containing information about joining the session

TODOS LIVE! is a series of online professional development sessions designed by TODOS leaders to facilitate state and national conversations and on-going learning and communication experiences that connect the mission and goals of TODOS and the five NCTM foundational priorities: Equity; Curriculum, Instruction, and Assessment; Professional Development; Research; and Advocacy. These sessions are aimed at increasing the equity awareness of educators and their ability to foster students' mathematical proficiency in rigorous and coherent mathematics. We thank ETA hand2mind for funding this season of **TODOS LIVE!**

Lawrence M. Lesser,
co-editor of TEEM and
Professor at The
University of Texas at
El Paso (a bio is at
