Department of Mathematical Sciences Colloquium

Rodrigo Banuelos

Chair, Department of Math Purdue University

MARTINGALE AND APPLICATIONS

In this talk we will describe how techniques from probability theory, particularly from martingale theory, can be used to obtain information on the norms of various singular integral operators that arise in areas of analysis with many applications to other fields.

Friday, March 5, 2010 at 3 pm in Bell Hall 143 The University of Texas at El Paso

Refreshments will be served in front of the colloquium room, 15 minutes before the start of the colloquium.
